## Welcome Message

Dear Friends and Colleagues,

Allergic diseases and asthma are a rapidly growing health problem worldwide with a marked socio-economic impact. Alongside rapid environmental and lifestyle changes, the fast-evolving economies like India face an increasing burden of allergic diseases. Advances in science, epidemiology, epigenetics, innovation, and technology continually challenge paediatric practice in the post pandemic world.

The 12<sup>th</sup> Annual Conference of the Paediatric Allergy and Applied Immunology Sub Chapter of IAP would be hosted at Mangalagiri under the aegis of IAP Andhra and Guntur and Vijayawada chapters on 30<sup>th</sup> November & 01<sup>st</sup> December 2024. The theme of the conference would be Pediatric allergies unmasked : from basics to breakthroughs.

The scientific program is being developed as a well-woven combination of cutting-edge advances and practical clinical aspects in allergy, asthma and clinical immunology, addressing the needs of both clinicians and researchers across specialties working in this space. With key regional, and national opinion leaders, this will be a truly unique platform for leaders, colleagues, and junior members to share knowledge, network and interact for the best scientific exchange and future collaborations. We hope the Conference will provide a unique platform as a knowledge base in the treatment and prevention of Allergies, Asthma, and Immunologic Disease.

On behalf of the PED ALLERCON, we welcome our industry partners to be part of this Conference. Your support will play an integral part in making the Conference a scientifically rewarding events for all those who participate. Together we can make a difference to the community at large.

Let's make the PEDALLERCON 2024 National Conference a success! We look forward to your active participation!
